Respirator Bags

Keep your gear in pristine condition with Safety Equipment Agencies' selection of reusable respirator storage bags for full and half facepieces.

Respirators should be stored away from dust, sunlight, heat, extreme cold, excessive moisture and damaging chemicals. Damage can reduce the efficacy and efficiency of your breathing equipment, essentially putting you at greater risk for inhalation-related injuries.

With a wide range of styles for both full and half face respirators, you are sure to find a protective bag that meets your needs.

Respirator bags have been shown to increase compliance and safety by keeping equipment at your side

	To Suit	Closure	Material	Belt or Shoulder Straps
TT 100	Half Face	Zipper	PVC	Belt
TT 150	Full Face	Zipper	PVC	Belt
